To our valued customers:

As a result of escalating prices in raw materials over the past few years, Hiwin finds it necessary to implement a price increase on all their product offerings effective June 1, 2021.

The increase has varied between 2% to 8% for the products we have looked at so far. This is Hiwin's first price increase since 2017. We expect you will still find the Hiwin prices to be lower than most competitive offerings.

The new prices will be effective for all orders placed with Tech Spec on or after June 1, 2021. Orders placed by mid-afternoon on May 28, 2021 will be processed at the existing price, even if you specify a delayed delivery. Please contact us if you wish to compare prices for any product to help you decide whether to place or increase orders now and lock in the current price.

We thank you for your continued support and look forward to being of service to you.

Any questions can be addressed to: tsinc@techspecinc.com

Best Regards,

Michael Appold
President
Tech Spec Inc.
